Subject: Detrex CleanGredients Statement

To whom it may concern,

This is an on-line database of cleaning product ingredients that have been shown to meet “established” requirements for superior environmental and human health performance. These “established” requirements were developed by GreenBlue, an independent 501(c)(3) non-profit organization, and are not U.S. regulatory requirements. CleanGredients is not a certification program, and the CleanGredient list may only be viewed through a subscription with GreenBlue.

Detrex Chemicals hydrochloric acid products, as shipped from our facility, are a very strong acid and are not suitable for use as consumer cleaning agent products. Detrex Chemicals hydrochloric acid products have not been evaluated against the CleanGredient requirements.

Sincerely,

A handwritten signature in black ink that reads "Dave Morgan". The signature is fluid and cursive, with the first name "Dave" and last name "Morgan" clearly distinguishable.

Dave Morgan
