Subject: Detrex Allergens Statement

To whom it may concern,

Detrex products are not manufactured from, or processed with, any potential allergenic products or ingredients, such as;

- Peanuts or byproducts
- Tree nuts or byproducts
- Fish
- Milk
- Eggs
- Shellfish
- Soya or soybean products
- Wheat or grains
- Synthetic or natural colors
- Chemical additives

Our Hydrochloric Acid products are manufactured from synthesized or manufactured compounds, and are processed in a closed system, using equipment and facilities that are dedicated only to the production of HCL. All Hydrochloric Acid products are processed in a closed process and are not handled by employees, which guards against inadvertent cross-contamination of allergens into our products. An element of the Detrex Food Safety program are allergen control procedures, which further ensure against inadvertent cross-contamination of allergens to our HCl products.

To the best of our knowledge Detrex Hydrochloric Acid Products are Allergen Free.

Sincerely,

A handwritten signature in black ink that reads "Dave Morgan". The signature is written in a cursive style with a large, stylized "D" and "M".

Dave Morgan
Global Product Manager, Hydrochloric Acid
