Subject: Detrex BSE/TSE Statement

To whom it may concern,

Detrex Hydrochloric Acid products are manufactured completely from synthetic or manufactured products and do not contain any raw materials produced from, or substances derived from animal origin. Our Hydrochloric Acid is not derived from any "specific-risk" materials defined in the EU Commission Decision 97/534/EC, or the US FDA Regulations contained in Title 21 of the Code of Federal Regulations, Part 589.

Our manufacturing, storage, analysis, and packaging processes do not use any ingredient of animal origin. Our products are manufactured in a closed system and do not come into contact with animal products during storage or transport.

To the best of our knowledge the hydrochloric acid products produced by Detrex Chemicals are free from Transmissible Spongiform Encephalopathy (TSE) and Bovine Spongiform Encephalopathy (BSE).

Sincerely,

A handwritten signature in black ink that reads "Dave Morgan". The signature is written in a cursive style with a large initial "D" and "M".

Dave Morgan
Global Product Manager, Hydrochloric Acid
