Subject: Audit (3rd Party, Supplier, and Internal)

To whom it may concern,

Detrex's policy is to purchase raw materials used to manufacture our drug grade products from qualified vendors. A component of our vendor qualification process involves collecting and reviewing information provided by those suppliers on their quality management systems and controls, as well as on-going information such as product analysis data. Detrex periodically conducts site audits of our key vendors to confirm the information provided is accurate and current.

Detrex employs the services of a 3rd party consultant to periodically conduct mock FDA compliance audits of our programs and facilities to ensure we meet or exceed all relevant regulatory requirements for our business, as well as identify continuous improvement opportunities.

Detrex also conducts periodic internal surveillance audits of our facilities as part of our quality management systems. Our internal auditors are independent of the operations they audit.

Sincerely,

A handwritten signature in black ink that reads "Dave Morgan". The signature is fluid and cursive, with the first name "Dave" and last name "Morgan" clearly distinguishable.

Dave Morgan
Global Product Manager, Hydrochloric Acid
